VR 2020 0412 MED.0379/5

Bijlage: Metadatamodel for research data_Version V1.5

Term	DataCite	Mandatory (M),	KPI implications	Value	Definition	Extra info
Dataset	Dataset				Data and objects generated or collected by researchers affiliated by a Flemish	Examples of research
					research institution in the course of their investigations, regardless of their form	data include, but are not
					or method, that form the object on which researchers test a hypothesis. This	limited to, notes,
					includes the full range of data: raw, unprocessed datasets, proprietary	surveys, images, objects,
					generated and processed data and secondary data obtained from third parties.	audiovisual files,
						spreadsheets, databases,
						statistical data,
						geographical data,
						simulations, software
						developed for research
						purposes, samples of
						any kind including of
						biological material,
						personal data, patient
						etch
Identifier	Identifier	Μ	Mandatory for KPI	value: DOI or handle	The Identifier is a unique string that identifies the landing page of a resource,	
					i.e. a concept DOI or a handle. Each metadata record has a minimum of 1	
Alternative identifier		0		value: DOI or handle or url	identifier. A concept DOI is preferred over a version DOI. The alternative identifier is a unique string that identifies a resources, i.e. a DOI,	
Alternative luentiner		0			handle or URL (ex. Link to data repository like Zenodo or institutional	
					repository). Multiple identifiers can be supplied, an identifier type has to be	
					provided.	
Identifier type	Identifier Type	м		Controlled list: Identifier: DOI,	The type of the Identifier.	Controlled list: Identifier:
				handle; Alternative identifier:		DOI, handle; Alternative
				DOI, Handle, URL		identifier: DOI, Handle,
						URL
Abstract	Abstract	MA	Mandatory for KPI	Free text field	Description of the dataset. Mandatory if no link to a project or publication is	
	A brief description				provided.	
	of the resource					
	and the context in					
	which the resource					
	was created.					
	Recommended for					
_	discoverv.					
Creator Name	Creator Name	M		Free text field	Name of the main researchers involved in producing the dataset.	
Creator Identifier	nameldentifier	MA	KPI implications: Mandatory 95%	ORCID	Persistent identifier(s): an ORCID for the main researchers involved in producing	
			starting 2021	CDID	the dataset.	
Creator Affiliation	affiliation	Μ		GRID	Affiliation to a Flemish Research Producing Organisation of the main (Flemish)	
T 11.	T 11.			Frank (Calif	researchers involved in producing the dataset, i.e. using the GRID.	
Title	Title	Μ		Free text field	The name by which the research dataset is known, has to be provided in the	
					original language in which the metadata record was published together with	
language	Language: The				the language field. English is preferred. The translation is optional. The primary language of the resource (=dataset).	
Language	primary language	0		controlled values list tbd	וווכ אוווומוא ומווצעמצב טו נווב ובשטעונב (-עמנמשבו).	
	of the resource.	0				
Publisher	e. me resource.				The name of the entity that holds, archives, publishes, prints, distributes,	
		MA		Free text field	releases, issues, or produces the resource. Examples include (de)central	

Publication year	Publication Year: The year when the data was or will be made publicly available.	м	V	value	The year when the dataset was or will be available to a community of researchers.	If an embargo period has been in effect, use the date when the embargo period ends. If there is no standard publication year value, use the date that would be preferred from a citation
Embargo date	Date: datetype: The type of date: created, submitted, accepted, available	м	f	format tbd	Different embargo dates relevant to the availability of the dataset. Yes/No value	nersoective. Mandatory if embargo date is applicable.
Date type		MA	-	Data type values: - issued - accepted - available	Data type values: - issued: date used to indicate when the dataset is made available, published or uploaded to a formal database. - accepted: date used to indicate the start of an embargo period - available: date used to indicate the end of an embargo period, sometimes specific conditions are applying (GDPR,)	
Research discipline Keywords Contributor	RelatedIdentifier: relationType : IsDescribedBy Contributor: Contributortype	R M	C F T	Controlled vocabulary: VODS Classification Free text field https://scnema.datacite.org/meta /kernel-4.3/doc/DataCite- MetadataKernel_v4.3.pdf	Classification of the dataset on the basis of the disciplines of the Flemish Research Standard. (where the research dataset originated, subfield L3) - where possible researchers should be encouraged to add this Main keywords describing the dataset. (free text field) The institution or person responsible for collecting, managing, distributing, or otherwise contributing to the development of the resource. To supply multiple contributors, repeat this property. The type of contributor of the	
		M (one contributor type)	[[[[[[[[[[[[[[[]]]]]]]]]]	Contact Person, Data Collector, Data Curator, Data Manager, Distributor, Editor, Producer, Project Leader, Project Manager, Project Member, Related Person, Researcher, Rightsholder, Sponsor, Supervisor, Work Package Leader	resource.	
Contributor given Contributor family name		м	7 F F		The personal or first name of the contributor. The surname or last name of the contributor	free text: such as 5 Mb. XML, JSON, CSV, txt, RDF, PDF, MPG (add the
Nameldentifier		R		Free text field value: identifier	Uniquely identifies an individual or legal entity, according to various schemes.	controlled vocabulary list) Can be used, e.g. when specific formats are used that are not common.

NameldentifierScheme		Mandatory if nameidentifier is provided		ORCID GRID	The name of the name identifier	
Size	Size (e.g. bytes, pages, inches, etc.) or duration (extent), e.g. hours, minutes,	0		Free text field	Unstructured size information about the dataset.	free text or link to license (eg. Http://creativecommons. org/licenses/by/3.0/de.d eed.en)
Format	davs, etc., of a Format : Technical format of the resource.		obliged for BOF (universities) from projects starting 01/01/2019, latest by end 2021.	Free text field	Technical format of the dataset.	
Open Format		M (universities) / O			Volledig open, voor alle onderdelen van de data en het moet aangekruist	Open data status will be
open onnat		0	toggle check from 2023	Toggle check	kunnen worden als er naast een non-propriety formaat ook een open formaat	mandatory. Under development.
Technical information	Description: All additional information that does not fit in any of the other categories. May be used for technical information.	o			Technical description of the dataset.	YES/NO
Version	Version: The version number of	o			The version number of the dataset.	Mandatory for BOF, IOF, FWO and public funding
IP rights	the resource. Rights: Any rights information for this resource. The property may be repeated to record complex rights characteristics.	R	Mandatory for KPI from 2023	values : Creative Commons CCZero (CCO) Open Data Commons Public Domain Dedication and Licence (PDDL) Creative Commons Attribution 4.0 (CC-BY-4.0)	Intellectual property rights for the dataset	as specified in covenants. Either provide link publication - dataset(s) or indicate that no datasets are available for publication
Access Rights	(OpenAire Data model)	M	Mandatory for KPI; datasets underpinning peer-reviewed publications from 2022		Status on the access possibilities of the dataset. Access rights are specified using the OpenAire 16. Rights (MA) Within this property you have rightsURI (MA): Use terms from the info:eu-repo-Access- Terms vocabulary. The values are: info:eu-repo/semantics/closedAccess info:eu-repo/semantics/embargoedAccess info:eu-repo/semantics/restrictedAccess info:eu-repo/semantics/openAccess	link
Legitimate opt-out		МА		values: privacy intellectual property rights ethical aspects aspects of dual use other legal or contractual provisions	Info:eu-rebo/semantics/obenAccess Specification on the legitime opt-out indicated in the field access rights	

Data - link to Project(s) Data - link to Publication	RelatedIdentifier: funderID (format agreements oplijsten) RelationType: (1 relation, result of) RelatedIdentifier: DOI RelationType: IsReferencedBy	ма	Mandatory for KPI BOF: from 2019 other from 2021	via FRIS object 'project' attached with a project identifier via FRIS object 'publication' attached with an identifier for publications (DOI, handle)	
Data - link to DMP	RelatedIdentifier: (tegen 2022)	M enge defiitie: BOF/IOF/FWO/VLAIO	Mandatory for KPI: up to 2022 only mandatory for BOF/IOF/FWO/VLAIO , from 2023 mandatory for all Flemish financers; link with PID/URL?	PID for DMP , linked to project Instituut voor Natuur- en Bosonderzoek Université Libre de Bruxelles Universiteit Antwerpen Universiteit Gent Universiteit Hasselt Vrije Universiteit Brussel Wetenschappelijk Instituut Volksgezondheid – Institut Scientifique de Santé Publique (Sciensano) Université Catholique de Louvain Université de Liège Université de Mons Université de Namur Vlaamse Instelling voor Technologisch Onderzoek Arteveldehogeschool Instituut voor Landbouw-, Visserij- en Voedingsonderzoek Universitair Ziekenhuis Gent Vlaams Instituut voor de Zee Vlerick Business School	
Fair Data Label	2024 - 90%, 60% should have high standard fair label; 2021 2nd half first implementation 2022 first measurement of fair lable roadmap: manual work - automated		Mandatory for KPI	Through the DOI Fabrica web interface or the API of the DataCite Metadata Store you will be able to submit a name, a metadata description following the DataCite Metadata Schema and at least one URL of the object to create a DOI. Once created, information about a DOI is available through our different to be determined in Task Force metrics EOSC FAIR WG Based on RDA FAIR Data Maturity Model
